OUTLINES.

The second day of the triennial convention of the Episcopal Church in the United States at Richmond, Va., yesterday was rather uneventful and was largely devoted to completion of organization and committee work; several foreign dignitaries of the church were present during the day and were received with distinguished honors; many of the visitors will go to Williamsburg, Va., for a special occasion tomorrow.——The Galena Oil Company, which furnishes 97 per cent. of the railroads of the United States with lubricants, was on the rack in the Standard Oil investigation in New York yesterday and great lack of uniformity of prices was shown from an accountant of the company; the Tidewater Railway, owned by H. H. Rogers, was shown to be the only road in its section not using the Galena lubricants.——The Rowland trial proceeded at Raleigh yesterday with much more testimony from the State, several points having been scored for the prosecution; this was largely in the evidence as to the purchase of a certain deadly poison by Dr. Rowland shortly before Engineer Strange, Mr. Rowland's first husband, died; it was also shown that they had visited Norfolk as man and wife before they were married and had occupied the same room at a hotel there. ——Pennsylvania Day will be celebrated at the Jamestown Exposition today; many prominent people from the Keystone State are there with a detachment of military. ——President Roosevelt and party arrived at Cairo, Ill., yesterday after an accident to the steamer Mississippi, upon which he was travelling; over 10,000 people heard his address there, two thousand school children being among the number.——Lemuel Ely Quigg admitted in New York yesterday that he had deliberately destroyed nearly $50,000 worth of checks so that he could not tell to whom they had been paid in the hearing of the street railway matter before the utilities commission now in progress.——New York markets: Money on call strong 3 to 8 1-2; ruling rate 7 1-2, closing bid 7 1-4, offered at 7 3-4; spot cotton, quiet five points lower at 11.55; flour firm but quiet; wheat strong, No. 2 red $1.07 elevator; corn firm, No. 2, 75 elevator; oats steady, mixed 53 1-2; turpentine firm, 56 1-2; rosin firm.

When are we to have that public park? And when will the surface gutters on the sidewalks be inverted?

Just think of a horse jockey earning $50,000 a year. That's better than being President of the United States.

A Virginia Judge named Blackstone recently went to sleep on the bench twice during one session of his court. He ought to change his name.

Maj. Dan Sinkler, of Charleston, S. C., has returned from a trip to New York and says Governor Johnson, of Minnesota, is the coming man.

When bank notes are made of different colors, as suggested, the fellow who always wants to see the "color of your money" will have ample justification for his curiosity.

Miss Mae Woods, who still claims to be one of Senator Platt's wives, has resumed divorce proceedings against the "Easy Boss." But it is not likely that he will "take to the Woods."

And now it is asserted that canned meats, the product of diseased animals, are largely responsible for the prevalence of cancer. Under the Pure Food law can't the packers be required to label such goods "Concentrated Canned Cancer?"

There are two leading objects in view in sending the fleet of battleships to the Pacific—one, to influence Congress to make extravagant appropriations for the navy, and the other, to make political capital for Roosevelt and Taft.

After a careful perusal of Lord Chesterfield, the editor of the Atlanta Constitution prepared and threw this bouquet at his esteemed contemporary of the Journal: "Unless the fool-killer gets in his work very soon, our evening contemporary will either exhaust itself or be taken in hand by the dog wagon." Neat, but not gaudy!

A contemporary remarks: "Army officers between the grades of captain and brigadier general are sore over the President's order rquiring that they shall be put through a test of horsemanship beginning on the morning of Oct. 8." Yes, but they are not half as sore as they will be when that fifteen-mile ride is completed.

In re the United States Senatorship Governor Glenn says he is giving that matter no thought now, and that the future will take care of itself. This means that he is waiting to see if his extreme position on the railroad and prohibition questions seems strong enough with the people to promise a successful contest for the place now so ably filled by Senator Overman.

REHDER'S OPENING

Magnificent Display of Fall and Winter Millinery at Big Department Store.

PLACE THRONGED ALL DAY

Latest Fads and Fancies in New and Fashionable Goods on Display There Yesterday—Evening Reception With Music.

An event of truly great interest to the ladies of the city and not a few who came from out of town for the event, is the annual opening of Fall and Winter millinery at the large department store of Messrs. J. H. Rehder & Co., near Fourth street bridge, which began with the opening of the big establishment yesterday morning and which will continue through today. Always a source of delight to the ladies, the opening at Rehder's this season is more delightful than ever. The millinery department is resplendent with pretty styles and shapes and all that is new and fashionable in the art. Miss Sarah Gardner, the head milliner, and Mr. and Mrs. Rehder spent some time North during the Summer and all the fashion centres were explored for the very latest creations which have been decreed by Dame Fashion for this Autumn and Winter. That their efforts in this respect are appreciated was manifested yesterday in the hundreds of visitors who thronged the department from early until quite late. They were charmed with the magnificent display and a very large number of orders were taken while hundreds of other selections were made from the large and varied stock, to be sent out later.

The opening at the big store reached the zenith of its glory last evening, when a magnificent reception was given at the store from 8 to 10 o'clock, every department of the large establishment having been brilliantly lighted and excellent music having been discoursed by Hollowbush's Academy Orchestra. The throngs of ladies, especially in the millinery department, were very large and all avenues seemed to be leading to the scene of so much loveliness. The decorations were in general charge of Mr. E. Clayton Moore, assistant to Mr. Anson Alligood, general manager of the store, and they are quite elaborate. Palms, ferns and Southern smilax have been used quite effectively in the millinery room, the colors blending in perfect unison with the many attractive hues of fashionable headgear and trimmings. The large show windows to the front are dressed in the heighth of fashion and there is a showing of nearly every department. The millinery windows are the special creations of Mr. Moore, while Mr. Luther Wessell,in charge of shoes, has an attractive display; Mr. J. N. Southerland has a pretty showing of clothing and gent's furnishings; Mr. Henry Ortmann has made a very attractive display of hats and Mr. Claude E. Moss, in charge of the dry goods department, has a nice exhibition of all the newest and latest shades and fabrics in dress goods.

But it is the millinery department, which is claiming the attention of the great majority of visitors. More than eight hundred of the latest shapes and styles in hats are shown and these are all excellently displayed for the prospective buyer. Misses' and children's hats form a most interesting part of the display. Miss Gardner says that there is a great variety of trimmings that are in favor this season. Velvets and ribbons in a number of shades and textures are used quite extensively, while flowers, ostrich tips, wings, quills and pon pons have lost none of their old-time prestige. The fluffy ruffle effect is seen quite generally as the fad for this season.

In the hats themselves the prevailing shades are green, brown, lilac, purple and navy blue. The silk hat seems to be quite popular, and a number of selections of these were made yesterday. Some of the most attractive patterns in fashionable headgear this season as reflected in the stock are the Shannon, Promenade, Marlowe, Vacation, Sagamore, Flufly Ruffles and Victorine. It would be useless to attempt a description of these. They are on display at the store and a visit and personal inspection would be appreciated by Mr. Rehder and Miss Gardner today.

In addition to the hats in the millinery department there is shown one of the most complete lines of furs ever brought to the city. The latest styles, fads and fancies are embraced in this stock and selections should be made early.

As has been stated the opening is not confined to the millinery alone. There is an "opening" all over the big establishment, each department being in charge of capable salesmen and salesladies. In clothing the famous Kirschbaum goods in ready-to-wear suits and rain-coats may be found in endless variety in this stock. In shoes there are the always popular Crawfords for men and Dolly Madisons for ladies and children. In the dry goods department Mr. Moss is showing an especially attractive line of dress fabrics, a leader being the famous "1003" broad cloth, which has been widely advertised. Then there are the shadow plaids, checks in wool suitings, French voiles, Cardua cloths, Shelma cloth, velvets and silks. An endless variety of trimmings and Venetian laces are shown also in this department.

In carpets and mattings the stock at Rehder's is not excelled. Many styes and shades in the finest as well as the cheapest carpets are shown and in mattings there was never a prettier showing in Wilmington.

Much could be written of this big store and what the opening was yesterday, but as before stated the display of new Fall and Winter goods continues through today and everyone will have an opportunity of inspecting the stock. The invitation is most cordial and all who did not visit the store yesterday are expected today.

NO DAY FOR FAVORITES

Racing Matinee Out at Old Fair Grounds Yesterday Afternoon Most Interesting of Season—Improvements Being Made.

The racing card of the Wilmington Driving Association out at the old Fair Grounds track yesterday afternoon was the most successful of the season. The crowd was large and was variously estimated at from twelve to fifteen hundred. It was not a day for favorites and, therefore, the interest was intense. Several new horses were on the turf and they behaved themselves in such a manner on the track as to make the old owners sit up and take notice. Traveler won the first event in the 2:30 class but in the other event Queen, a new Richmond in the field, took the honors from Pet and Patti, both of which are among the first harness horses in the knowledge of the Association and in the running races Sorrel Bobby and Lady Laundry were the fastest animals. In the running races, especially that in which Daisy, owned by Boushee, was the favorite, there was the greatest interest and the odds were all turned the other way upon the completion of the heats. The official results are declared as follows:

2:30 Class—Won by Traveler, driven by McEachern; time 1:14; Barney, driven by Byerly, second and Sir Hanna, driven by Wrede, third.

2:40 Class—Won by Queen, driven by Caldwell; time 1.24; Patti, driven by Emerson, second, and Pet, driven by Littig, third.

Running Race—Won by Sorrel Bobby, owned by Solomon and ridden by Shepard; time 55; Daisy, owned by Boushee and ridden by Toby, second.

Running Race—Won by Lady Laundry, owned by Darby; time 59; Unknown, owned by Poisson, second.

The officials of the matinee were D. McEachern starter, W. D. MacMillan, Jr., timekeeper; W. F. Robertson and T. B. Carroll, judges.

Visitors to the grounds noted many improvements. The course is set with posts for a fence that will be put up this week and arrangements are being made to erect a suitable grandstand for the accommodation of the large number of people who have manifested an interest in the sport.

Owing to some confusion only a few responded to the call for the meeting of the Association at the Court House last night to effect a permanent organization and the meeting was postponed until later. Members of the committee on membership, however, were present and handed in to the secretary quite a number of names of those who will join.

A meeting of the Carolina Pleasure Palace Company was also called for the Court House last night, but this also did not materialize but will be held later. A meeting of the directors of the company is called to be held in Room No. 9, Masonic Temple, at 5 o'clock this afternoon.

HABEAS CORPUS CASE HEARD

Negro Child Remanded to Custody of Parents in This City.

There was another interesting hearing before Judge J. Crawford Biggs in the Superior Court yesterday, sitting in chambers to determine the case. It was a petition for habeas corpus brought by Lula Jones and her husband, William Jones, colored, for possession of their child Johnnie Bryan, about four years old. The respondents were the grand parents of the boy, John and Cornelia Bryant, of Wallace, respectable colored people who alleged in their complaint that the mother was not a proper person to bring up the child and that beyond that the boy had been given to them to raise. C. E. McCullen, Esq., of Burgaw, appeared for the plaintiffs and Messrs. Stevens, Beasley & Weeks and George R. Ward, for the respondents. After hearing all the evidence, Judge Biggs decided that the custody of the child belonged to the mother and it was so ordered. From this dicision an appeal was taken to the higher court.

The grand-parents of the child had the child in court and when he was taken by the mother, the boy set up a squall as if he viewed possession by his rightful owner as a subject for terror. The grand mother of the child went into hysterics over the loss of the child as she passed down to the first floor of the Court House and her cries in the building attracted a number of persons from the street.

EXPERT TESTIMONY

State Scored Three Important Points in The Rowland Trial at Raleigh Yesterday.

EVIDENCE AS TO HOISON

Aconitine Purchased by Principal Defendant Few Days Before Engineer's Death—Defence Begins With Its Testimony.

(By Associated Press.)

Raleigh, N. C., Oct. 3.—The State won its great fight of today in the Rowland trial in that it had admitted as testimony three important circumstances bearing upon the alleged murder of Engineer Strange by Dr. Rowland and wife, the former Mrs. Strange. The most important of these was the admission by the court of the evidence of the bookkeeper of the W. H. King Drug Company here, that it had ordered fifteen grains of aconitin a deadly poison, quick to act, from New York for Dr. Rowland, and that the records showed that this was delivered to him on the fourth of April, two days before Strange died, the State through its witnesses giving Strange's symptoms before death, as those from aconitin. The State also scored in that the railroad tickets were admitted showing that Dr. Rowland and Mrs. Strange a day before they were married, travelled by night in a Pullman, while the hotel register shows that they registered in the Monticello Hotel in Norfolk as Dr. and Mrs. D. S. Rowland. The State insisted that Strange's health was good, while the defense brought out every feature of heart disease. The State rested late in the afternoon and the defense put on depositions from Memphis to show that in 1905 Strange suffered from heart trouble there.

(Special Star Correspondence.)

Raleigh, N. C., Oct. 3.—When Dr. and Mrs. Rowland were brought into court this morning to resume the taking of testimony for their prosecution on the charge of poisoning Mrs Rowland's former hsband, Chas. R. Strange, they showed marked effects of the strain they have been under the past several days that the trial has dragged along. Mrs. Rowland was decidedly pale and nervous. One thing that has made it especially hard for her has been that the testimony being all by witnesses for the prosecution, it had depressed her. Both of them show decided effects of the strain. There is strong doubt as to the possibility of concluding the trial this week.

When the case was called this morning Dr. W. A. Symme, chemist who made the analysis of the stomach of Strange, resumed his testimony. He said the stomach of Strange weighed between eight and nine ounces, and that it was difficult to trace poisons when decay was so well advanced as in this case, and there was no chemical test by which the presence of aconitin could be traced. On cross-examination he said a very small quantity of aconitin rubbed on the body would cause a tingling sensation. Seven tenthousandths of a drachm might do this. He would not say it was impossible to show there was no alkaloid in the stomach, but knew of no test by which aconitin could be discerned. The putrefaction of the stomach would have the effect of separating the elements of aconitin but would not destroy them.

T. B. Terrell testified that he saw Strange often for weeks before his death. Strange told him he was suffering from hemorrhoids and had been off his run two weeks. Otherwise he was all right.

Clerk of the Court W. M. Russ testified to having granted administration papers to Mrs. Strange (Rowland) on the estate of her former husband, his cash assets being estimated at $2,450. Sheriff Sears was put on the stand and showed from the tax books that Dr. Rowland gave in his property for taxation last year as $100 for scientific instruments, $25 for watches and jewelry, all other property $150, making $405 in all.

This is significant in connection with the fact that he has one of the most elaborately and completely equipped offices in the South with X-ray and a large number of most expensive appliances, and is reputed to have $15,000 or $20,000 besides invested one way and another.

The next witness was J. C. Allison, bookkeeper for the W. H. King Drug Company. He produced the books of the company showing that Dr. Rowland ordered fifteen grains of aconitin, which was procured by special order from New York. It was delivered three days before the poisoning of Strange. The order was by telegram and the aconitin was in crystal form. The witness went over the whole process of receiving the order, all entries and final credit of payment by Dr. Rowland of $1, for the poison which is not carried in stock generally by druggists, there being no call for it generally by physicians or others.

Much of the afternoon session was taken up with presenting over again the testimony of J. C. Allison, bookkeeper of the W. H. King Drug Company, showing the purchase of fifteen grains of aconitin by Dr. Rowland.

Judge Long admitted enough of the evidence to show that the drug was ordered for him from Mercke & Co., of New York, by telegraph and delivered to him three days before the alleged poisoning of Strange. Witness had no personal knowledge of the delivery of the poison to Dr. Rowland. The clerk who did this, Dr. Fisher, is now in Richmond, Va., and refused to come to Raleigh to testify. Counsel for the defence excepted to the ruling of the judge, admitting the tstimony of Allison because he had no personal knowledge of the transactions. It is understood an effort will be made to procure the attendance of Dr. Fisher.

Dr. A. W. Knox, medical expert, detailed the effect as a powerful heart depressor and a most deadly poison, rarely used. He did not think Strange would have died from heart disease under the conditions outlined in a hypothetical question as having had one attack in 1905, off duty two weeks in 1907 and during March made six days over-time in running an engine. The register of the Monticello Hotel, Norfolk, was introduced to show that Dr. Rowland and Mrs. Strange registered there May 14th as man and wife, were given Room 139, when they were not married until the next day. Mrs. Rowland was very nervous, clasping and unclasping her hands at this stage of the testimony.

The prosecution rested their case at 5:10 o'clock, and the defence began presenting depositions. A letter from Mrs. Mary Black, a sister of Strange, was offered, commenting on the attack he had in Indiana and asking if this was not the trouble of which he died. Deposition Dr. E. P. Haynes, of Memphis, Tenn., showed he examined Strange in May, 1906, and found mitral insufficiency and prescribed diffusion of digitalis; also a deposition from Theodore Fesner, brother of Mrs. Rowland, a mail carrier in Memphis, to the effect that while living in the home of Strange in 1903, he knew of Strange having had an attack, gasping for breath. He threw water on him and relieved him.

At 6 o'clock a recess was taken until tomorrow. There is little prospect of completing the trial this week.

CRUSHED UNDER A TRAIN

W. G. Leggett, Young Coast Line Switchman, Met Horrible Death Near Delgado Early Last Night. From Robersonville, N. C.

W. G. Leggett, a young white man not more than 18 years of age, a switchman employed by the Atlantic Coast Line in this city, was instantly killed last night about 8 o'clock as the result of being run over by an engine and nine or ten freight cars being shifted on the belt freight line of the company, about 100 yards east of the old Union crossing, between the Willard bag factory and Delgado mills. The engine and cars passed directly over the stomach of the young man and he was cut practically in two, while his hands and arms were fearfully mutilated. Some one on the train saw the young switchman fall and cried to the engineer to stop the train, but in the darkness, it is said, that it was impossible for the engineer to stop before the engine, tender and nine cars had passed over the body as stated.

From best information obtainable young Leggett had started to jump on the pilot of the engine, but in doing so he missed his footing and fell under the wheels of the big locomotive. It was a sad coincidence that the young man had a brother working on the same train and also employed as switchman. He was one of the first to get to the mangled remains of the young man as they lay crushed on the iron rail. The brother is Clarence E. Leggett, about 21 years of age. They are both from Robersonville, near Rocky Mount, N. C., and have been employed by the Coast Line in this city for about six months.

Soon after the death of the man, Undertaker Walter E. Yopp was notified and Mr. M. L. Brimmer, of his establishment, went out and brought the body into the city, where it was prepared for burial. It will be shipped this morning to the former home for interment. Dr. C. D. Bell, the coroner, also visited the scene of the killing and at the request of the older brother, has summoned a jury of inquest to meet this morning for the purpose of inquiring into all the circumstances of the tragedy.

The train at the time of the accident was going toward Delgado and was in charge of Engineer Charleston and Conductor Bushong. The engine was No. 128, and was being used in shifting freight cars on the dummy or belt line to the Willard bag factory and other industrial plants along the line.

Not With Theatorium.

The Star was in error yesterday in stating that Messrs. Vandeusen Brothers were proprietors of The Theatorium, on Market street. The Messrs. Vandeusen were formerly in charge of The Casino moving picture theatre on the beach, but as stated yesterday they will shortly open a garage in this city, having accepted the agency for the Reo Automobile.

Children's Hour at Library.

The little folks are reminded that the "Children's Hour" at the public library at the City Hall will commence at 5 o'clock this afternoon and that they are all expected. The meeting of the little folks will be made most instructive and entertaining and it is hoped there will be a large attendance.

JURY CANNOT AGREE

Out All Night in Suit of Branch Against Atlantic Coast Line.

IN THE SUPERIOR COURT

Issues Submitted Before 4 O'clock Yesterday Afternoon, But No Verdict is Reached—Other Matters on the Docket.

The jury in the $25,000 damage suit brought by Mr. John M. Branch, of this city, against the Atlantic Coast Line Railroad Company, for the death of his son, Conductor W. M. Branch, in Florida three years ago, seems unable to agree upon a verdict in the Superior Court and a mistrial may result. The issues in the case were submitted yesterday afternoon at a quarter to 4 o'clock and this morning as the paper goes to press, the twelve men are still out in the Court House and there are reports that they are hopelessly divided. Judge Biggs gave instructions that if an agreement was reached before 11 o'clock last night he would go to the Court House and receive the verdict but at that hour there was "nothing doing" and the twelve men were locked up for the night in charge of Deputy Sheriff W. H. Cox. By midnight the lights had been turned off in the court room and the indications were that the jurors had retired for the night without further effort at reaching an agreement.

Yesterday practically all day in the court was taken up with the closing argument of counsel to the jury and His Honor's charge. Upon the convening of court Hon. John D. Bellamy completed his argument and was followed in order by Mr. Junius Davis for the railraod company and Mr. McClammy for the plaintiff. Judge Biggs' charge was regarded as eminently fair and was very lucid. The jury just before the recess of the court for the day asked to be furnished with a copy of the railroad rules which were offered in evidence during the trial and by agreement of counsel on both sides the book was given to them. Later they sent out for pencil and paper and this was construed to mean that they were figuring on the amount to be awarded. However, all these matters are mere speculation. An agreement may be reached by the time court convenes this morning, but this is not thought likely.

The divorce mill began to grand yesterday in the few short hours after the case of Mr. Branch went to the jury. Three were granted to colored plaintiffs, all on the ground of adultery. They were as follows: Thos Boykin against Hanna Boykin; Rosa L. Harley against Jos Harley and Serena Boseman against John Boseman.

In the case of Cyrus S. VanAmringe against Henrietta Watson, administrator of W. A. Eckels, a non suit was ordered. Continuances were granted in cases of Armstrong Cator & Co., against the Seacoast Railroad Company; Prigero Silverman against Josh Simon and J. F. Sellers, against J. J. Adkins.

The jury which is out all night in the Branch suit is composed as follows: J. N. Sweeney, John Ahrens, J. T. Eagle, N. B. Chadwick, A. H. Weedon, George Hutaff, John H. Kuch, D. L. T. Capps, John F. Littleton, N. Humphrey, C. C. Rice and J. F. McInnis.

EXTRAORDINARY DROWNING.

Colored Man Fell in Epileptic Fit in Eight Inches of Water.

Seated on the edge of a bridge over Macomber's ditch, near where it intersects with Twelfth and Grace streets, engaged in washing some bottles in the stream, George Chavers, colored, 35 years old, fell forward into the water in an epileptic fit yesterday morning and was drowned. There was less than eight inches of water in the ditch or drain, but the colored man was perfectly helpless and was found some hours later by a small colored boy. The man's face and nose were buried in the mud and water and he must have been drowned at once. On the bridge from which the negro had fallen about two feet were found a knife and some labels from a bottle which he had evidently been scraping. A colored boy about 6 years of age found the body in the ditch and notified police headquarters. Dr. Bell went out and viewed the body, but an inquest was not deemed necessary, as death evidently resulted from natural causes. The negro had been afflicted with epilepsy for some time. He lived on Seventh between Bladen and Harnet streets.

HEARST A MARPLOT.

If William R. Hearst is nominated for the Presidency by the so-called "Independence League" the sole object will be the defeat of the Democratic ticket. Hearst knows, and all his followers know, that he could not carry a single State and, consequently, would not receive a single vote in the electoral college. But there is real danger that he might cause the defeat of the Democratic electoral ticket in the State of New York, as at least four-fifths of his support would come from former Democrats, and without New York the Democrats have little hope of success.

In the last State election in New York Hearst was defeated for the governorship while all the other candidates on the same ticket were elected. Hearst knows that he was defeated by Democrats who either voted for Hughes or did not vote at all, and he has not forgotten the humiliation thus imposed on him. Now he seeks revenge and is planning the defeat of the Democratic ticket. Intellectually he is a weakling; but he owns a string of newspapers of very large circulation, has millions of dollars at his command, and has in his employ, at princely salaries, a staff of brilliant newspaper men and politicians. These lieutenants write his editorials and speeches for him and formulate his campaign plans. With these combined agencies it is not difficult to realize that this creature of accident can command votes enough in New York and, possibly in one or two other States, to defeat the party that refused to make him governor of New York.

Hearst is announced to speak at the Yadkin Valley fair, in Salisbury, during the current month. He will be treated courteously, of course; but he will find few supporters of his doctrines among the conservative people of North Carolina.

THE WEIGHING OF MAILS.

If, as is stated, says the Chattanooga Times, the modification of the Cortelyou mail weighing order made by Postmaster-General Meyer, the government is going to save millions of dollars in the transportation of mail, the natural inquiry will be: Why did Mr. Cortelyou make an order by which the government has been losing these millions? An impression has prevailed for a long time that there has been grafting of more or less magnitude in the mail-carrying business, and naturally this discovery of Mr. Meyer that large sums of money can easily be saved to the department will renew public interest in the subject. We have been told so often by Congressmen and public officials connected with the government that the possibilities of the postoffice department, as an adjunct to political machinery are unlimited, that naturally the public will wonder, whether a postmaster-general who persisted while holding his office in retaining the executive headship of his political party might not have found an easy way to repay some political obligations through a mail weighing device.

Whether this be true or not the action of the present postmaster-general, who is not chairman of the Republican executive committee, in modifying the system established by his predecessor, who was chairman of that committee, so as to save "millions of dollars to the people," will at least furnish abundant cause for activity in the explanation department of President Roosevelt's party.

A notable among the Confederate commanders passed out of earthly view a few days ago with the death of Gen. James H. Lane. Though not a native of this State nor very long a citizen of it, he commanded many North Carolinians in the Civil War and won the admiration, confidence and affection of them all. He was an intrepid officer and a gentle, lovable gentleman. The tiding of his death will cause a pang in the hearts of all who knew him.—Charlotte Observer.

Well said of a man who was one of "Nature's noblemen." Gen. Lane was a citizen of Wilmington several years, where he conducted a high school with marked success. He had many friends here who admired him for his splendid qualities. May he rest in peace.

The October number of the Review of Reviews, one of the most valuable and popular magazines in the country, is fully up to its standdard of excellence. Among the leading articles are Japanese Case in Korea, McKinley Memorial in Sculpture, Tercentenary of the Episcopal Church, Richard Mansfield and the American Stage, The Improvement of Our Inland Waterways, etc. Price, $3.00 a year. Address, 13 Astor Place, New York.

CURRENT COMMENT

—Washington Republicans all agree that "Roosevelt can have it, if he wants it"—that is, the nomination for a third term. But many of them admit his promise not to run again would defeat him. There would be more than a violated promise to contribute to the overthrow of the ambition of Theodore Roosevelt. There's his promise to revise the tariff, still unfilled; his promise to bust the trusts, still unkept as evidenced by the unrestrained robberies of the Meat Trust, the Coal Trust, the Oil Trust, and the Lumber Trust; his promise to conserve home rule, broken in the interests of his own personal machine in many States; his promise to discard the company of corrupt political bosses, ignored in order to get the delegates in States like Pennsylvania, Ohio and New York. Yes, there is plenty to defeat Theodore Roosevelt for a third term.—Lockport Union-Sun (Dem.)

—However little the postal authorities may like to handle it, the souvenir or picture card is not only affording the people a great deal of pleasure and entertainment, but it is actually providing a goodly amount of valuable information. People, as they travel about, are apt to buy postal cards illustrating the places where they happen to be and send them to their friends at home. They contain pictures of the most interesting sights and scenes, many of them historic and all of them interesting. Whoever has a collection of several hundred can get a pretty good descriptive idea of a great many points and places. Some people have thousands of these cards and in that way are enabled to know much about many interesting buildings people and scenes. In this respect the picture postcard fad does more than has been accomplished by all the geographies ever written. There are a good many arguments that can be advanced in their defense.—Utica Press (Ind.)

—There is something both grimly ominous and sharply illuminating in the publication by the "Slovo," a St. Petersburg newspaper of figures showing the numbers of persons who have fallen victims to the present state of unrest in the Czar's dominions. The matter is handled much as is the gathering of official information in other countries, and a statistician of acknowledged high standing is cited as authority. He reports that during the revolutionary agitation not less than 47,020 persons have been dealt with. Of this number 19,144 have been killed. The largest loss of life, it appears, was due to encounters with soldiers and police. What this means may be easily inferred. The soldiers lost little or no time when they had the least justification for attack, and fired at the people as a means of intimidating the disorderly. In a country where the ordinary citizen is not allowed to carry arms, it will be seen how slight was the opportunity to oppose force with force, and the slaughter of the people is readily explained.—Troy Times.

TWINKLINGS.

—A teacher showed his small pupils a zebra, saying: "Now what is this?" "A horse in a bathing suit.' was the prompt reply.—La Caricaturists.

—"Sir, I want your daughter's hand." "You may have it with the greatest pleasure, dear boy, if you'll take the one that's always in my pocket."—Baltimore Sun.

—First Suburbanite—What time do you get home evenings? Second Suburbanite—Well, I have no regular time I leave the office regularly at 5:45.—Somerville Journal.

—Progress of a Climber.—Knicker—Has Newrich risen in society? Bocker—Yes; he used to be afraid the cook wouldn't stay; now he's afraid the butler will.—New York Sun.

—Averting It.—Mamma—Oh, children, why are you so naughty today? Children—Why, sister said if we'd be good she'd sing for us tonight.—Cleveland Leader.

All He Needs.—"Does E. H. Harriman own that new railroad?" "Mr. Harriman owns just one share of stock in the company." "Indeed! And who are the minority stockholders?"—Chicago Journal.

—Rollingstone Nomoss—Don't let's go in here. Dis woman keeps a dog. Let's go on to de next place. Tattordon Torn—De woman at de next place keeps a wood pile.—Philadelphia Record.

—Playful Puck.—"I," said Puck, "will put a girdle around the world in forty minutes." Then he grinned. "In other words," he continued, "in about the same length of time it takes the average woman to adjust hers.'—Louisville Courier-Journal.

—"Does your wife assist you in your work?" queried the horse reporter. "I see her at your desk often." "Yes," replied the self confessed humorist. "She destroys all my wife and mother-in-law jokes."—Chicago Daily News.

Safe from the Elements—The North Dakota farmer tunneled from his house and looked over the vista. "There's one comfort," he muttered, trying to peer beyond the drift that covered his barn; "no cyclone can blow away a farm that's weighted down like this."—Philadelphia Ledger.

—An Important Question.—While little Christabel and her yet smaller sister were playing, her mother was announcing to grandma "Our neighbor, Mrs. P., has a new baby." Instantly Christabel turned in eager excitement. "Oh, mamma," she asked, "what is she going to do with her old one?"—Lippincott's.

SPIRITS TURPENTINE.

—Sampson Democrat "At a meeting held on the night of the 27th the prospects for a cotton mill in Clinton at an early date were brighter than before, and the amount of subscriptions to stock had increased since the adjournment of the last meeting practically $15,000.00, running the total up to about $40,000. Quite a number of interesting talks were made, and those who had taken an active part in the movement from the first, showed a more retermined interest in the enterprise than ever. Messrs. D. M. Partrick, H. A. Grady and L. A. Bethune were appointed to visit several mills and obtain all the points, as to cost, the kind of machinery, operating and all matters in detail possible, and report at a meeting on Friday of this week. Messrs. Ashley Horne and W. D. McNeill, who have subscribed to stock have been invited to meet with us at this meeting."

—In an interview this morning with Mr. H. L. Cook, he was asked the question if he was a candidate for the Congressional nomination next year. He stated in reply "that it was well known throughout the Sixth District and especially among his friends, that he has an ambition to represent his people in Congress, and that last year immediately after the convention in Fayetteville, he announced in a letter to his friends that as soon as the field was "open" again, that he would be a candidate and make a fight to the finish. He says that many of his friends are urging and insisting that he make announcement of his candidacy now, but that he has refrained from doing so, as he wanted to ascertain the sentiment of the district, as he does not want to ask his friends to support him without some reason to believe that there will be a change and that he will announce his position in ample time and requests that his friends hold themselves in readiness to give him their support should he decide that conditions justify his becoming a candidate."—Fayetteville Observer, Sept 28.

NAVIGATE PEE DEE TO CHERAW, S. C.

Plucky Little City Will Use Natural Waterway in Effort For Lower Freight Rates—Conference in Columbia Monday.

The Columbia State of Tuesday has the following that will be read with interest in this section:

"Yesterday Messrs. R. T. Caston, president of the Bank of Cheraw; R. M. McKay, director of the bank, and Jas. R. Harrell, a prominent business man of Cheraw, were in the city attending to the purchasing of machinery, etc., for the Cheraw-Georgetown Boat company, the new Pee Dee river line, which will begin operations within a few weeks.

"Two boats have already been purchased by this company, which will ply between the waters of the Pee Dee weekly between Cheraw and Georgetown. Traffic arrangements have been perfected with the Clyde Line Steamship company and it is said that as soon as the boat line is placed in operation the freight rate from New York and other Eastern seaboard points will be 28 cents per hundred less than the present rates.

"The new line will be ready in sufficient time to handle the fertilizers and this within itself is a big item. Return cargoes from Cheraw will consist of cotton, turpentine, rosin, tar, creosote, lumber, shingles, granite, etc.

"Practically every business man in the town of Cheraw has stock in this company as well as a number of business men of Georgetown, and the success of the enterprise is assured. The merchants and others have agreed to give all the business to the boat line which can possibly be handled and the naval stores, cotton and lumber interests and manufacturers have agreed to furnish for return cargoes whatever they can.

"Up to date wharves and warehouses are being erected at Cheraw and a cable road is now nearing completion, under the direction of Maj. Chas. H. Scott, which will transport all freight with dispatch from the river's edge to the warehouses near the business centre of the town.

"The bank, of which Mr. Caston is president, has just completed one of the handsomest banking buildings in the State outside of the cities of Columbia and Charleston. He considers that Cheraw's future was never brighter in all of its long history."

SPECIAL TO SUBSCRIBERS.

Advance in Rates of Subscription Beginning October 1st.

Beginning October 1, the subscription rates of The Morning Star will be as follows:

By Mail—One year, $6.00; six months, $3.00; three months, $1.50; two months, $1.25; one month, 75 cents.

By Carrier—Delivered in any part of the city, 50 cents per month either by the month or year.

This moderate advance has been deferred until it has become absolutely necessary on account of the largely increased cost involved in the production of newspapers.

For many years the subscription price of The Morning Star has been lower than that of any other paper of its class in the State.

Hard Times in Kansas.

The old days of grasshoppers and drought are almost forgotten in the prosperous Kansas of today; although a citizen of Codell, Early Shamburg, has not yet forgotten a hard time he encountered. He says: "I was worn out and discouraged by coughing night and day, and could find no relief till I tried Dr. King's New Discovery. It took less than one bottle to completely cure me." The safest and most reliable cough and cold cure and lung and throat healer ever discovered. Guaranteed by R. R. Bellamy's drug store 50c and $1.00. Trial bottle free.

Out of Sight.

"Out of sight, out of mind," is an old saying which applies with special force to a sore, burn or wound that's been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles too and chilblains disappear under its healing influence. Guaranteed by R. R. Bellamy, Druggist. 25c.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.
HARDIN'S PHARMACY, Special Agt.

GUION & DAVIS,

Barbers and Hair Dressers.

Are still at the old stand, 10 South Front street, where they are prepared, as usual, to serve the public in the best style. Everything necessary to the comfort and complete satisfaction of our patrons.

MRS. A. M. HAGERMANN

ALL WOMEN SUFFER

from the same physical disturbances, and the nature of their duties, in many cases, quickly drift them into the horrors of all kinds of female complaints, organic troubles, ulceration, falling and displacements, or perhaps irregularity or suppression causing backache, nervousness, irritability, and sleeplessness.

Women everywhere should remember that the medicine that holds the record for the largest number of actual cures of female ills is

Lydia E. Pinkham's Vegetable Compound

made from simple native roots and herbs. For more than thirty years it has been helping women to be strong, regulating the functions perfectly and overcoming pain. It has also proved itself invaluable in preparing for child-birth and the Change of Life.

Mrs. A. M. Hagermann, of Bay Shore, L. I., writes:—Dear Mrs. Pinkham:—"I suffered from a displacement, excessive and painful functions so that I had to lie down or sit still most of the time. Lydia E. Pinkham's Vegetable Compound has made me a well woman so that I am able to attend to my duties. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound and see what relief it will give them."

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female illness are invited to write Mrs. Pinkham, at Lynn, Mass. for advice She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Therefore she is especially well qualified to guide sick women back to health.

Remember

That house that was vacant so long? Why? Because you didn't list it with me. I have a large and ever increasing list of customers. Try me. Property for sale from Raleigh, N. C., to Titusville, Fla. When you wish to rent or buy any "dirt" or buy or sell any bank, mercantile or any other kind of stock, consult me, and I will give the matter my personal attention and push it with all the vim that I can command.

PERSONAL PARAGRAPHS.

—Pender Chronicle: "Mrs. J. B. Moore left Saturday to spend several days with her sister, Mrs. L. J. Merriman, of Wilmington."

—Mr. J. Parker Lewis, who represents a large novelty house in the North is in the city calling on the trade and renewing acquaintances with many old-time friends in Wilmington.

—United States Postoffice Inspector S. H. Buck is in the city on one of his regular trips. Mr. Buck now has headquarters in Goldsboro, but it is learned that in a short time he will remove to Fayetteville as that city is more centrally located in his district.

—Pender Chronicle: "Miss Jeannette Moore came up from Wilmington Friday night to spend Saturday and Sunday with her parents. —Miss Katharine Paddison left Monday for Wilmington, where she has accepted a position as teacher in the Delgado school."

CHARGED WITH KIDNAPPING

Negro Women Before Mayor Yesterday Found Not Guilty.

Nearly two hours in the police court yesterday was consumed with the trial of two colored women, Lizzie Carroll and Anna McArthur, charged with kidnapping and sending out of town the 13-year-old grand-daughter of Katie McArthur, a motherly-looking old colored woman of spotless reputation. The defendants were represented by Brooke G. Empie, Esq., and the women could not be connected with the sending of the child away. The evidence was that she left here some time last week on the Carolina Central train for Lumberton, but none of the witnesses for the prosecution could connect the defendants with knowledge of the fact. The defendant Anna McArthur is a daughter-in-law of the old woman and lived in the house with her and the child before the latter turned up missing. The old woman yesterday succeeded in borrowing enough money from the Mayor, whose sympathies were excited, to leave on the afternoon train to bring her grand-daughter back to Wilmington regardless of whether the defendants were guilty or not.

The only other case in the court yesterday was one in which Mr. H. M. Goodman was charged with speeding his automobile Monday night on Orange, Market and Princess streets, the charge having been preferred by Officer T. G. Evans. The Mayor reserved his judgment until Friady.

RED FEATHER TONIGHT

Coming of High Class Comic Opera to Academy.

It is doubtful if any comic opera ever presented has scored more heavily everywhere than "Red Feather," De Koven, Klein and Cook's popular work. That it will come to the Academy of Music on tomorrow evening of this week will be welcome news to those who enjoy good music well sung, and a romantic story told in a whimsical and merry way. Miss Cheridah Simpson is this season at the head of the big organization, and has been receiving warm praise for her impersonation of the dashing bandit and winning countess, a dual role requiring unusual ability, as well as personal attractiveness. In the minds of those who recall Miss Simpson's characterization of Prince Eagle, in "Woodland," there will be no doubt of her ability to hold her own in "Red Feather," notwithstanding the fact that the supporting company is an especially strong one. This opera has always enjoyed the distinction of being the most elaborately staged musical work ever produced, and it is declared to have been kept strictly up to the high mark it originally set.

W. H. HUBBARD ASSIGNS.

Market Street Saloon Man Unable to Meet His Obligations.

Admitting that he is indebted to various and sundry persons and is unable to meet the demands made upon him by his creditors, Walter H. Hubbard, a saloon keeper at 128 Market street, yesterday afternoon, through his attorney, Walter P. Gafford, Esq., made an assignment, naming J. A. Smith as trustee. The paper was filed in the office of the Register of Deeds at 3:45 P. M. and the trustee is empowered to take charge of the affairs of the business, dispose of the stock at either private or public sale, collect all accounts, etc., and after reserving for the assignor his legal exemption, paying J. & E. Mahoney, of Portsmouth, Va., a claim of $300 secured by first mortgage, W. P. Gafford, Esq., $50 for professional services and the assignee 5 per cent. on all transactions, to pay the remainder of the proceeds to his creditors equitably.

LOCAL DOTS.

—Rev. J. S. Crowley, pastor of Immanuel Presbyterian Church, and Mrs. Crowley are now at home at No. 204 Nun street, where they will be pleased to have their friends call.

—The directors of the Carolina Pleasure Palace are called to meet at 5 o'clock this afternoon in Room No. 9, Masonic Temple. All members are requested to be in attendance.

—By deed filed for record yesterday, Mary McI. Harriss, of Fayetteville, transferred to W. M. Cumming and wife, for $600, property at southeast corner of 16th and Wright streets, 330x396 feet in size.

—Mr. J. J. Carter, the clevr foundry and machine shop foreman of the Dublin Iron Works, is in the city to spend a few days with his family at 217 South Second street. He reports cotton crops good and business booming all over the State.

—Clarkton Express: "The Presbyterian Sunday School invites everybody of all denominations to meet with them on next Sunday to hear Dr. Geo. C. Worth, a missionary to China. The services begin at 10:30, and there will very likely be a night service also."

—There is already a large sale of seats for "The Red Feather" which comes to the Academy of Music tonight. Interesting advertising devices in the form of red feathers to be stuck in the hat band or in the coat lapel are used in the company's advertising and many of these made their appearance on the streets yesterday.

—Colonel C. H. White, Assistant Inspector of Small Arms Practice of the North Carolina National Guard, has resigned that position to become effective at once. Colonel White has for many years been on the official staff of the Guard and has a long and distinguished record. It is to be regretted that he is to retire, which is for business reasons.

CAROLINA CENTRAL BRIDGE.

City Authorities Compel Attention of the Company Engineers.

The "hot iron" was applied by the Mayor the past several days to the Seaboard Air Line authorities with reference to the dangerous condition of the bridge across the Carolina Central tracks on North Fourth street, as a result of which Engineers Galloway and Hughes came down from Hamlet yesterday and after a visit to the scene of the trouble with the Streets and Wharves Committee of the city, agreed to begin work on laying a new floor for the structure first thing today. The foundations for the bridge were found in very good condition, and the city authorities have consented to put up with this, until some steps can be taken to compel the road to place an iron bridge there. The floor of the bridge will be relaid with three-inch plank and this will answer every purpose for the present.

The Streets and Wharves Committee has had the matter up with the Seaboard people through Chairman O'Brien for some time. This week the Mayor and Chairman O'Brien took up the matter jointly and some rather caustic letters were passed. The two engineers came down yesterday and gave assurance that the work would be done at once.

TO ATTEND WEDDING.

Prominent People in Fayetteville for Williams-Huggins Nuptials.

Yesterday afternoon's Fayetteville Observer has the following in regard to the Williams-Huggins wedding, which was celebrated there last night:

"Mr. and Mrs. James Sprunt, Misses Jennie and Fannie Murchison, Nannie and Margaret Holliday and Miss Martha Williams, of Wilmington; Mr. and Mrs. James White, Miss Katherine and Mr. James White, Jr., of Augusta, Ga.; Mr. J. Williams White, of Atlanta; Miss Lutie Murchison and Mr. I. A. Murchison, of Manchester; Miss Isabel Bidgood, of Birmingham, Ala.; Misses Isabell, Eunice and Eleanor Whitted, of Glengary; Mr. Lloyd Whitted, of Hasty, S. C., and Mr. Arthur Butler Williams, of Rennert, are here to attend the wedding of Miss Jane Williams and Mr. Alpheus Huggins, of Cullman, Ala., which occurs this evening at half after eight at the Presbyterian Church. Immediately after the marriage a reception will be given at the home of the bride on Gillespie street."

A NEEDED IMPROEMENT

Eleventh Street From Red Cross to Campbell and on Twelfth.

(Communicated).

Alderman Martin O'Brien is having Eleventh street from Red Cross to Campbell and Campbell from Eleventh to Twelfth streets macadamized. From Twelfth street the Oakdale Cemetery Company will macadamize to the entrance of its grounds. This improvement will be appreciated by all of our people and Aldermen O'Brien is entled to and will receive the thanks of the community.

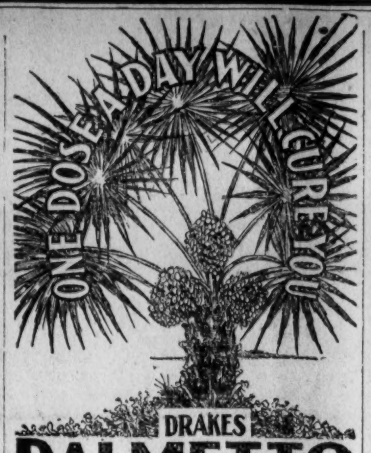
Ex-Judge Sutton Appointed.

Yesterday afternoon's Fayetteville Observer says: "It is said that Ex-Judge T. H. Sutton, who is now in Florida, has received an appointment in the United States Land office in that State and will resign as United States Commissioner at Fayetteville. Mr. D. J. Cashwell is an applicant for the Commissionership to succeed Judge Sutton."

His Dear Old Mother.

"My dear old mother, who is now eighty three years old, thrives on Electric Bitters," writes W. B. Brunson, of Dublin, Ga. "She has taken them for about two years and enjoys an excellet appetite, feels strong and sleeps well." That's the way Electric Bitters affects the aged, and the same happy results follow in all cases of female weakness and general debility. Weak, puny children too, are greatly strengthened by them. Guaranteed also for stomach, liver and kidney troubles, by R. R. Bellamy, Druggist. 50c.

Let the Polvogt Company lay your carpets. Largest department in the State. Right prices. **



Beware of the distress signals such as nervousness, weaknesses, palpitation or irregular beating of the heart, indigestion, dizziness, tired sluggish feeling, soreness in the back, shoulders, side, etc. If you have

STOMACH, KIDNEY or LIVER

troubles of any kind whatsoever this remedy will cure you and you don't have to take it for months or weeks either before you get relief; three days treatment is usually enough to show results.

We guarantee every bottle; if it fails to cure take the empty bottle back to your druggist and get your money.

Catarrh. After using the trial bottle of Drake's Palmetto I purchased two large bottles. I am now well of the complaint of catarrh. I can say it will cure. C. T. Gardner, Louisville, Ky.

Stomach Trouble. I have suffered for ten years with stomach trouble, causing a constant headache which has been cured by Drake's Palmetto. Mrs. G. R. Herndon, 309 W. 45th Street, Chicago.

Kidney and Bowel Trouble. My little three-year-old daughter has had kidney and bowel trouble for two years. I have tried several different kinds of medicines for her and have never found anything to do her as much good as Drake's Palmetto. She is well now and is as fat and healthy looking as any little girl I ever saw. Mrs. Roger Lewis, Simpsonville, Ky.

At all druggists; two sizes, 50 cents and $1.00. The Drake Co., Wheeling, W. Va.

For Sale and Guaranteed by J. Hicks Bunting.

Interfered With Alarm Wires.

John Williams, the colored contractor on the job, and John Fields, a laborer employed by Williams in tearing away the old Fourth Street market house, were arrested yesterday on a charge of having interfered with the wires of the fire alarm of the city, the charge having been preferred by Superintendent John T. Yates. Captain Louis Freimuth, who purchased the building, became surety for the appearance of the defendants before the Mayor at noon today.

To Inspect New Tug Boat.

Assistant United States Engineers R. C. Merritt and Percy Canady, of the Wilmington district, have gone to New York to inspect a new tug that is being offered to the government for some of the river improvement in the eastern part of the district. They left Saturday night and will also visit Baltimore while away.

THE BASEBALL PENNANT

Detroit and Philadelphia Winners Yesterday.

(By Wire to the Morning Star.)

Washington, Oct. 3.—Although the Detroits needed to win from the Washingtons today in order to make it impossible for the Philadelphias to close the gap in the championship series, Manager Jennings' Washington friends waived the element of doubt and presented him with a floral horse shoe in token of his men's victory just before the game started at American League Park this afternoon. The score by which the Detroits tightened their hold on the pennant stood 9 to 3, the Washingtons scoring only after "Bill" Donovan, having the game safe, eased up a bit and lobbed the ball over the plate. Ty Cobb kept up his terrific clip at the bat, getting three hits in four times up. O'Leary also was there with the stick for two singles and a double. Kay did the best work with the stick for the Nationals, looming in the score with three singles. Four double plays testify to the visitors snappy work in the field.

The Score—		R	H	E
Detroit ..	..010 033 101—	9	1	1
Washington	....000 000 021—	3	10	3

Batteries: Donovan and Schmidt; Ghering and Blackenship. Time 1:30. Umpires Hurst and Brown.

Philadelphia, Oct. 3.—Philadelphia ended the season on the home grounds today by shutting out Cleveland in a quickly played game. To win the pennant the home team must take all four games from Washington and Detroit lose two to St. Louis.

The Score—		R	H	E
Cleveland ..	..000 000 000—	0	2	5
Philadelphia	..002 002 00x—	4	4	1

Batteries: Clarkson and Clark; Dygert and Schreck. Time 1:20. Umpires Connolly and O'Loughlin.

Other Scores.

American—New York, 3; Chicago, 0. Boston, 1; St. Louis, 0.

National — Pittsburg, 0; Philadelphia, 1.

PENNSYLVANIA AT FAIR.

Keystone State People Arrived at the Jamestown Exposition Yesterday.

(By Wire to The Morning Star.)

Norfolk, Va., Oct. 3.—The Pennsylvania celebrations at the Jamestown Exposition began today with the arrival of hundreds of Pennsylvanians from all parts of the Keystone State, and with a large number of Wilkesbarre, Pa., officials and residents, the guests at a dinner tendered them by President Tucker, of the Exposition, in connection with the celebration of Wilkesbarre day. The Ninth Pennsylvania regiment, under Colonel Asa Minor, has arrived at the Exposition and gone into camp.

The Pennsylvania State Day celebration will take place tomorrow, with Governor Stuart and many prominent Pennsylvania State officials present.

Fifty men engaged to take the place of strikers on the Cuban railways sailed from New York for Havana yesterday on the steamer Monterey. The men were in charge of representatives of a private detective agency.

Fall coat suits on display at Polvogt's. **

Opening display of Fall Millinery will be held on Thursday and Friday, next. October 3rd and 4th.

Planned to give Wilmington smartest followers of fashions a correct idea of the approved Millinery styles.

Evening Reception Thursday, 8 to 10

A cordial welcome to all.

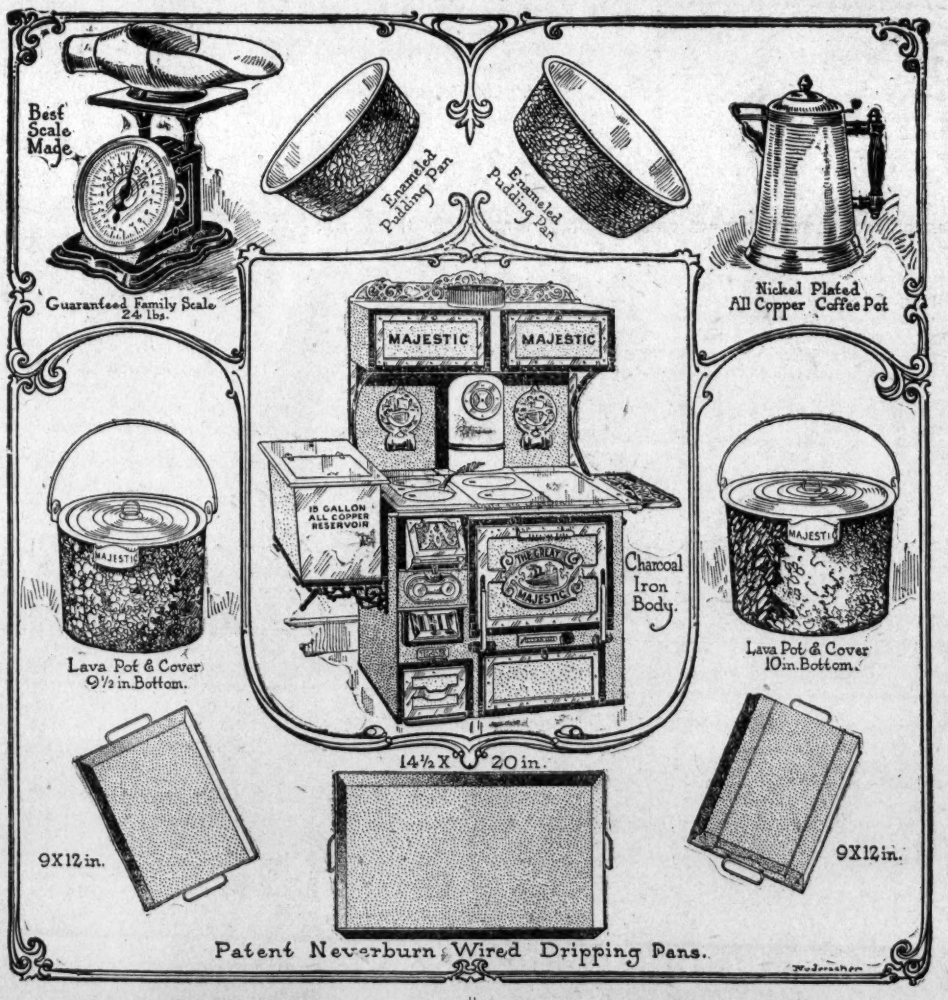
COOKING EXHIBITION

of the Great Majestic Malleable and Charcoal Iron Range at Our Store

—ONE WEEK, MONDAY, OCTOBER 7th TO 12th, INCLUSIVE—



FREE!

$7.50

SET OF WARE

With every Majestic Range sold during this Cooking Exhibition, we will give absolutely FREE one handsome set of ware as shown. This ware is worth $7.50 if it is worth a cent. It is the best that can be bought. We don't add $7.50 to the price of the range and tell you you are getting the ware free, but sell all Majestic Ranges at the regular price. You get the ware free. Remember this is for exhibition week only. Ware will not be given after this week. This ware is on exhibition at our store, and must be seen to be appreciated.

Come in any day during the week. Make our store your headquarters. Have coffee and biscuits with us.

Come if you intend to buy or not; the information gained will serve you in the future.

Facts About The Great Majestic Range

It is the only range in the world made of Malleable and Charcoal Iron.

It has, beyond any question of a doubt, the largest and best reservoir.

It uses about half the fuel used on other ranges, and does better work by far.

The Majestic All Copper Nickeled Reservoir heats the water quicker and hotter than any other. It is the only reservoir with a removable frame.

The Charcoal Iron Body of the Great Majestic Range lasts three times as long as a steel body.

Being made of non-breakable material, there is practically no expense for repairing the Majestic.

As for baking, it is perfection, not only for a few months, but for all times to come.

A GREAT MAJESTIC RANGE lasts three times as long as a cheap range, but it don't cost three times as much.

PROOF—We don't ask you to take our word for any of the above statements, but if you will call at our store, a man from the factory, where Majestic ranges are made, will prove to your satisfaction, that these are absolute facts, and will show you many more reasons why the Great Majestic Range is absolutely the best that money can buy.

EVERYBODY WELCOME!

N. JACOBI HARDWARE CO.

Rob Townsend Arrested.

Late last night the police succeeded in arresting Robert Townsend, a half brother of the desperado Will Townsend. The half brother arrested last night has been wanted for some time for an assault with a deadly weapon upon a woman by cutting her with a knife, but he made his escape until the police got on track of him last night. While other officers were crowding him, the negro was taken in custody by Policeman Justice near Second and Chestnut streets.

THE COTTON MANUFACTURERS

Convention in Washington Yesterday. Address of Secretary Wilson.

(By Wire to The Morning Star.)

Washington, Oct. 3.—The National Association of Cotton Manufacturers' convened here today in semi-annual session for a two days meeting. About two hundred delegates representing nearly every section of this country and more than a hundred cotton manufacturers from England, Germany, Italy, France, Portugal and Belgium were in attendance. The convention here is preparatory to the international conference of cotton growers, spinners and manufacturers which will be held in Atlanta, Ga., October 7th to 9th. The foreign delegates also will attend the Atlanta convention.

The programme for today's session was interesing. Secretary of Agriculture Wilson opened the convention with an address followed by discussions of the following subjects:

"General question of cotton mill fires," by Charles H. Fish, Dover, N. H.

"Cotton Manufacturing and Fire Waste," H. L. Phillips, Hartford.

"An Analsis of Usage," George Otis Draper, Hopedale, Mass.

Secretary Wilson said: "The Department of Agriculture has been helping the cotton producers in every way within its power. The diseases of cotton and the insects that ravage the crops are being carefully studied. A few years ago the sea island cotton industry was threatened with a serious disease. The Department scientists developed varieties of cotton that were resistent to this disease and re-established the industry. They also found plants like the cow pea that resist this disease and add fertility to the soil. Through cotton breeding and selection many new types have been secured and many of them have demonstrated their superiority over the ordinary kinds. Some of the finest upland cottons have been produced by this method and some of them are nearly equal to the sea island.

The Department is teaching the necessity of seed selection, better methods of tillage, the use of the arguments in furnishing nitrogen to the soil and the introduction of animal husbandry. It has been found that by proper seed selection the quantity of lint which has been around 200 pounds per acre has been practically doubled, where experiments have been made. By better farming the amount of cotton now produced can be grown on half the present acreage or by better farming we can double our production of cotton on the acres under tillage. The possibilities of cotton production in this country are practically limitless, he said.

An address was made by William D. Hartshorne, of Lawrence, Mass., the president of the Association. The principal questions discussed by President Hartshorne were child labor and the necessity of industrial education. He asserted that five-sixths of children between 14 and 16 years in the cotton mills of Massachusetts had not graduated from the grammar schools.

Director General Barrett, of the Bureau of American Republics, spoke of the importance of the foreign market. He said that he would not minimize the home market, but in view of the fact that other countries had a trade with the South and Central American countries aggregating $100,000,000 annually, while the United States shared in that trade only to the extent of $10,000,000, efforts should be made by American manufacturers to capture a large portion of that commerce.

The establishment of a department of manufactures at the head of which should be a man conversant with the special requirements and interests of the manufacturers was urged by F. B. Macey, of New Bedford, Mass. The night session was devoted largely to a discussion of the subject of cotton mill fires, the concensus of opinion being that only by the exertion of eternal vigilance will these fires be minimized, although a good general organization and modern equipment against the possibility of fire may exist.

WASHWOMEN TO STRIKE

Make Demands for Better Conditions in Richmond, Va.

Richmond, Va., Oct. 3.—The Times-Dispatch says that after the colored family washer-women and house-cleaners complete this week's work, it is stated that they will demand an increase in their wages—that is, those of them who are members of the Domestic Labor Union. It is stated that the orders for this demand increase came from Philadelphia, where the powers that be ordered the Richmond washers of clothes to go out on strike within twenty-four hours. As a result of this order, the local members of the union held a called meeting yesterday afternoon, but though most of the women seemed to favor the strike, no official action was taken, as most of them had half-washed clothes on hand, and declared that they could not go out an such short notice. It is not likely, therefore, that the strike will become effective until the latter part of the week.

It is stated that those who are not members of the union are being sought by a visiting organizer, who is trying to bring them into line with the others.

If the strike is declared on, it is stated that washing will be taken by the dozen pieces at the rate of 70 cents, and house cleaning, unless contracted for, at 75 cents per day.

The matter is being kept as quiet as possible, and information is somewhat difficult to obtain; but it is stated on good authority that another meeting will be held tonight.

SHE CAPTURES A COUNT

Miss Gladys Vanderbilt to be Fed by Budapest Nobleman.

(By Wire to the Morning Star.)

Newport, R. I., Oct. 3.—Mrs. Vanderbilt, widow of the late Cornelius Vanderbilt today made formal announcement of the engagement of her daughter, Gladys, to Count Ladyslaus Szechenyi, of Budapest.

Within a few hours after the formal announcement, "the Breakers," the Summer home of Mrs. Vanderbilt, was deluged with hundreds of bouquets for Miss Vanderbilt. Several congratulatory telegrams and cablegrams also were received during the day.

Miss Vanderbilt's fiancee arrived here from New York last night on the private car "Wayfarer," owned by Alfred G. Vanderbilt, a brother of Gladys. He was met at the station by Miss Vanderbilt, who drove him in a basket phaeton to "The Breakers." Today Miss Vanderbilt and Count Szechenyi went to Portsmouth to visit the country estate of her brother Alfred.

It is expected that the wedding will take place next month and it is generally believed that the ceremony will be performed in the historic Trinity church, where Miss Vanderbilt's mother is a pew holder.

HONORS FOR MR. ROOT

Having a Gay Old Time in Mexico City This Week.

(By Wire to the Morning Star.)

Mexico City, Oct. 3.—Secretary of State Elihu Root was today the recipient of the highest honors granted to a foreign visitor at the City of Mexico. A special meeting of the Chamber of Deputies convened especially to show the appreciation of the law makers of this republic for the distinguished guest and in the evening a ball was given at the jockey club.

Mr. Root visited the Chamber of Deputies, the legislative body which corresponds to the United States House of Representatives.

The President of the county, Senor Emanuel Callero, delivered a speech welcoming Mr. Root in the name of the legislature of Mexico. The applause which greeted Secretary Root's speech in response was boundless.

Immediately after the session in the Chamber of Deputies, Mr. Root hurried to the building of the Mexican academy of jurisprudence and legislation where another honor was to be conferred on him, that of membership in that body.

The banquet tendered Mr. Root by the City of Mexico at the municipal palace was one of the most brilliant events of the series in honor of Secretary Root.

FOUR AT A CLIP.

Italians Charged With Murder of a Countryman.

(By Wire to the Morning Star.)

Lancaster, Pa., Oct. 3.—Four Italians were hanged at one time in the yard of the Lancaster county jail here today. They are Anthony Delero, Stephen Carlui, Siveero Rodelli, and Jos. Celione and the crime for which they paid the death penalty was the murder of a fellow countryman, Plato Albamese, who was killed for showing resistance when the four attempted to rob him.

The four men were taken from their cells and marched to the scaffold in a body, each one supported by a priest. They presented a firm front, except Carlui, who wavered several times, but braced up on the scaffold. All died from strangulation. On the scaffold Delero, whose right name is DeLorenzo, made a statement in which the other three joined. He confessed that they went into the shack to commit a robbery and said that Albamese attacked him with a razor and that in self defense he shot his assailant when he called for assisance and that Cetlione responded and also in self defense stabbed Albamese a number of times.

DESTROYED THE CHECKS.

Street Railway Magnate Said He Deliberately Destroyed Evidences.

New York, Oct. 3.—That he deliberately destroyed checks for $43,878, so that he would not be compelled to say to whom the money represented by them was paid, was admitted by Lemuel Ely Quigg at the hearing on the street railway merger matters before the Public Utilities Commission today.

"My memory is faulty. I should not like to attempt it," he said when Attorney Ivins, who is conducting the investigation, asked him if he could tell to whom the checks were drawn.

Secretary D. C. Morehead, of the Metropolitan Company, stated on the stand that he had been unable to locate the checks charged to the "special construction account," and that he was certain they must have been destroyed.

AFTER THE RICH MEN.

Winchester Appoints Commission to Probe Tax Returns.

Winchester, Va., Oct. 2.—A great stir was caused today by the appointment of a special tax commission to probe and investigate many returns made under oath to Commissioner of the Revenue J. E. Correll by wealthy residents.

It is alleged that a large number of rich men have made false returns, and efforts are being made to have a grand jury investigation. Vice President Shirley Carter, of the City Council, declares that city tax rate could be cut down 25 to 40 per cent.. if taxable property was correctly turned in by the taxpayers.

HAD KILLED FATHER

Boast of Bold Bad Man on Trial at Chattanooga.

Chattanooga, Tenn., Oct. 3.—A. D. Edwards, on trial for the murder of Sam Brooks, a negro, under cross-examination, today said:

"I have shot and probably killed fourteen men in my time."

He said that a majority of the killings occurred in the Kentucky mountains and during a labor strike in Chicago. Edwards is known as a Kentucky feudist.

SPIRITS TURPENTINE

—Sampson Democrat: "Mr. L. J. Butler sold his entire crop of tobacco raised on two acres a few days ago, which averaged him in price 13 cents around, except for the tips and scraps. He made in all 1,300 pounds per acre and his crop sold for $295.00. This is hard to beat. He sold on the Clinton market and is well pleased."

—Standard Laconic, Snow Hill: The present cotton crop in this county, from all accounts, will be much shorter than was thought some time ago. The boll is small, and in many places so badly diseased as to have fallen off, or to be absolutely worthless. A small worm is responsible for much of the shortage.

—Standard Laconic, Snow Hill: The prospects are now that Governor Glenn will have a record-breaking crowd to hear him on the night of the 10th, on the great question of temperance. He is one of the ablest advocates of this important question now agitating the minds of our people. If you wish to hear a great speech by a great man, come out Thursday night, October 10.

—Edgecombe Advocate: Dr. L. L. Staton has decided to erect a two-story hotel or boarding house for the accommodation of the working girls of the Tarboro cotton factory. The hotel will be in charge of a matron and will be managed same as a dormitory in a girls' school. The building will be constructed of brick, and equipped with all modern improvements, including steam heating.

—The contestants in the bond election in Pitt county lost their suit last week. Judge Lyon decided that the law was regular and the election held according to law. An appeal was taken and thus the matter goes to the Supreme court. It will be recalled that the contestants are striving to set aside the bond issue by which the Eastern Training School was located in Greenville.

—Salisbury, N. C., Oct. 2.—The residence and farm of the late Isaac Lyerly, at Barber Junction, were sold at auction this week and were purchased by Mr. E. Lyerly for $2,600. This is the home place of Isaac Lyerly, who, together with his wife and two children were horribly butchered one night in July of last year, which resulted in the triple lynching in this city of the Gillespie negroes and Jack Littlejohn.

—Elizabeth City, N. C., Oct. 2.—A large number of delegates are here to attend the twenty-fifth annual convention of the North Carolina Woman's Christian Temperance Union. The convention will be in session during the remainder of the week with the state president, Miss Elizabeth March, presiding. The annual reports show that the past year has been one of steady growth, and the outlook for the coming year is very encouraging.

—Salisbury, N. C., Oct. 2.—Dr. J. B. Council has just returned from Boone, Watauga county, where he went to see his brother, Judge W. B. Council, who is quite sick with pneumonia. It will be remembered that Judge Council had to abandon holding court at Greensboro the first of last week owing to illness. He has never fully recovered from injuries received in the terrible wreck near Hamlet last year, at which time a number of people were killed and many were injured.

—Edgecombe Advocate: The Henry Clark Bridgers' building, the pride of Tarboro, was completed today when Mr. John E. Wallace, representing the firm of George J. Roche & Son, Baltimore, placed the final touches on the hardwood work of the interio of the second and third stories. The building is one of the finest in eastern North Carolina. It is a modern three story structure with pressed brick front and finished in oak. It is unusually attractive from the outside, but a person must only inspect the interior to appreciate its beauty.

—Laurinburg Exchange: "We notice some of the papers are boasting about large bales of cotton being marketed on their local markets. The largest we have read of so far brought $96. Being in the cotton business here in Scotland county, it is, of course, up to us to do something a little better than our neighbors, and we have 'did it.' On Saturday last Mr. L. Brown, superintendent of Mr. H. W. Malloy's farm in Lower Stewartsville township, sold to Mr. R. E. Lee a bale of cotton weighing 790 pounds; the price paid was 12 3-4 cents, netting $100.72. The seed from this bale was worth something like $15, making its value about $116."

—Judge G. S. Ferguson at Charlotte has appointed Mr. J. S. Mooney receiver for the Crowder's Mountain Cotton Mills, located at King's Mountain, the institaution being declared insolvent. The liabilities of the concern are said to be in the neighborhood of $120,000, with assets of less than half that sum. The receiver is instructed under the order of the court to operate the mill until it is bought in. The Crowder Mountain Mill was organized and chartered about fourteen years ago. Its capital stock, according to the last issue of the blue book, was $61,000, and its equipment consists of nine cards 121 looms, and 3,592 spindles. Mr. D. B. Baker is president of the mill, and the late P. S. Baker was sectary and treasurer. The stockholders are largely King's Mountain and Gastonia men, although some stock is held by Charlotte men.

A Criminal Attack

on an inoffensive citizen is frequently made in that apparently useless little tube called the "appendix." It's generally the result of protracted constipation, following liver torpor. Dr. King's New Life Pills regulate the liver, prevent appendicitis, and establish regular habits of the bowels. 25c. at R. R. Bellamy's drug store.

Danderine

GREW MISS CARROLL'S HAIR

AND WE CAN

PROVE IT

Beautiful Hair At Small Cost.

WITHIN the last decade great and rapid strides have been made in Materia Medica. Many diseases that were considered incurable fifteen years ago are now cured in a few days, and in many cases prevented altogether. The scientists of late years have been delving for the cause, the foundation, the reason and the starting point of disease, fully realizing that the actual and true cause must be ascertained before the remedy can be located. Hair troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp, and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the **hair** grows must receive the attention if you are to expect **it** to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment, and when baldness occurs the scalp has simply lost all of its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions).

The natural and logical thing to do in either case is, feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Dr. Knowlton's DANDERINE

is the only remedy for the hair ever discovered that is identical with the natural hair foods or liquids of the scalp. It feeds and nourishes the hair and does all the work originally carried on by the natural nutrients or life-giving juices generated by the scalp itself. It penetrates the pores of the scalp quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One twenty-five-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—**try it and see for yourself.** Now on sale at every drug and toilet store in the land. Three sizes, **25c, 50c and $1.00.**

MISS J. CARROLL
2307 Irving Ave., Chicago

FREE To show how quickly **Danderine** acts we will send a large sample free by return mail to any one who sends this advertisement to the **Knowlton Danderine Co., Chicago,** with their name and address and 10 cents in silver or stamps to pay postage.

What's the Use

of paying more for an article through prejudice, than you can buy for less, that's just as good?

Take Whiskey, for Instance.

We make but one charge—just for whiskey—that's all. When you pay more than we ask for our whiskey you are being taxed for something else besides the whiskey.

Now "WHAT'S THE USE" of you paying an excess to anybody for imaginary superiority—when we have the same goods, but are content through immense volumes of sales, to break even on profits—instead of "hikeing up" the price beyond the point of giving you value received.

"CHESTERFIELD" products are "AS GOOD AS THE BEST FOR LESS." That's the reason "CHESTERFIELD" Whiskies are popular.

"CHESTERFIELD NEVER DISAPPOINTS." Full quart $1.00. TRY IT.

PORK—Out of season.

TURKEYS—Out of season.

NEW YORK STOCK MARKET.

(By Wire to The Morning Star.)

New York, Oct. 3.—There was more activity in the stock market today and the depression was less passive than in the torpid market of yesterday. The most pronounced influence on the day's market was the large selling for foreign account, not only on orders from London but also, it was said, from Asterdam and European points. Continued tension on the money market was a restraint on any demand for stocks and kept the market vulnerable so far to attack. The rate for call loans did not go as high as yesterday and showed a tendency to relax from the early high level. For the first time this week, the bank's showed a gain on the day's sub-treasury operations, which were influenced by the payment of government interest. Bonds were easy. Total sales, par value, $1,178,000. United States 4s declined 1-4 per cent. on call. Total sales of stocks today were 538,700 shares.

THE COTTON MARKET

(By Wire to The Morning Star.)

New York, Oct. 3.—The cotton market ruled irregular during today's session with the close quiet and steady at a net decline of 3 to 8 points. Sales were estimated at 200,000 bales.

The market opened steady at a decline of 2 to 6 points, which was just about as due on the cables. Immediately afterwards it sold off to a net loss of 6 to 9 points on the active months under liquidation and bear pressure, which was promoted by the break in the English market after the local opening and the good weather in the South as shown by the early map. Not only January made a new low record, selling at 10.83 and the market had quite a rally during the middle of the session on covering of shorts and report form the South that farmers were refusing to sell their cotton at any concession. After working up to a net advance of about 2 to 3 points, the market eased off again, however, under a renewal of Wall street pressure, and the close was well off from the best. The leading outside operator issued a crop estimate of 13,533,000 bales. The western belt forecast called for showers and lower temperatures helping the improvement during the middle of the day. Wires from the southwest say that farmers are storing between one-half and two-thirds of their cotton.

Receipts of cotton at the ports today were 25,557 bales against 32,400 bales last week and 40,777 last year. For the week 250,000 bales against 220,990 last year and 313,576 last week. Today's receipts at New Orleans 3,123 bales against 6,907 last year and at Houston 3,977 bales against 15,674 last year.

Cotton Spot closed quiet 5 points lower; middling uplands 11.55; middling gulf 11.80; sales 1,450 bales.

Futures opened steady and closed quiet and steady.

CHICAGO PRODUCE MARKET.

(By Wire to the Morning Star.)

Chicago, Oct. 3.—Prices of wheat on the local exchange today advanced almost 2c because of heavy exports to Europe. At the close the December delivery showed a net gain of 1 7-8 to 2. Corn was up 7-8. Oats were 1-4 to 3-8. Provisions were a shade to 7 1-2 higher.

Leading futures closed as follows:

Wheat—December, 1.01@1.01 1-8; May, 1.07 1-4; July, 1.03 5-8.

Corn—December, 58 1-8@58 1-4; May, 59 1-8.

Oats—October, 51 1-4; December, 52 1-8; May, 53 3-4@53 7-8.

Mess Pork, per barrel—October, 13.80; January, 15.10.

Lard, per 100 pounds—October, 8.95; November, 9.05; January, 8.72 1-2.

Short ribs, per 100 pounds—October, 7.70; January, 7.82 1-2.

Cash quotations were as follows: Flour, steady; No. 2 Spring wheat, 1.05@1.09; No. 3, 97@1.10; No. 2 red, 96 1-2@97 3-4; No. 2 corn, 61 3-4@62; No. 2 yellow, 62 1-4@62 1-2; No. 2 oats, 51 1-4; No. 3 white, 47 1-2@51; No. 2 rye, 86; short ribs sides (loose), 7.75@7.85; mess pork, per barrel, 13.95@14.05; lard, per 100 pounds, 8.97 1-2; short clear sides (boxed), 8.50@8.75; whiskey, basis of high wines, 1.34.

LIVERPOOL MARKET.

(By Cable to the Morning Star.)

Liverpool, Oct. 3.—Closing Cotton: Spot, moderate business done; prices 10 points lower. American middling, fair 7.48; good middling, 7.00; middling, 6.54; low middling, 6.14; good ordinary, 5.40; ordinary, 4.80. The sales of the day were 7,000 bales, of which 1,000 were for speculation and export, and included 5,100 American. Receipts, none. Futures opened quiet and steady and closed steady. American middling, G. O. C.: October, 6.04 1-2; October and November, 5.98 1-2; November and December, 5.93 1-2; December and January, 5.91; January and February, 5.91; February and March, 5.91 1-2; March and April, 5.92 1-2; April and May, 5.93; May and June, 5.93 1-2; June and July, 5.93 1-2; July and August, 5.93 1-2.

FINANCIAL MARKET.

(By Wire to the Morning Star.)

New York, Oct. 3.—Money on call strong 3 to 8 1-2; ruling rate 7 1-2, closing bid 7 1-4, offered at 7 3-4. Time loans firm; sixty days 6 per cent., and ninety days 6 1-2 per cent. Six months 6 per cent. Close: Prime mercantile paper 7 per cent.; sterling exchange weak with actual business in bankers bills at 4.8555 to 4.8560 for demand and at 4.8220 to 4.8225 for sixty day bills. Commercial bills 4.81 1-2 to 4.81 5-8. Bar silver 66 1-2. Mexican dollars 51 5-8.

DRY GOODS MARKET.

(By Wire to the Morning Star.)

New York, Oct. 3.—The dry goods market was quiet today. Forward business is being curtailed in several directions, but the demand for ginghams, prints and colored cottons is still strong. Cotton yarns are weak. Staple worsteds continue in good demand, but wools are very unsatisfactory and reports of shutting down looms are becoming plentiful. The new business on silks is only fair.

NAVAL STORES.

(By Wire to The Morning Star.)

New York, Oct. 3.—Spirits turpentine, firm 56 1-2; rosin, firm.

Savannah, Oct. 3.—Spirits turpentine, firm 52 3-4; sales, 220; receipts, 562; shipments, 384. Rosin, firm; sales, 2,325; receipts, 2,103; shipments, 3,577; stock, 86,404. Quote: A, B, C, 3.95@4.00; D, 4.05@4.10; E, 4.30@4.32 1-2; F, 4.45@4.50; G, 4.50@4.55; H, 455; I, 4.55@4.60; K, 4.70@4.80; M, 4.90@4.95; N, 5.20@5.60; WG, 5.80; WW, 6.00.

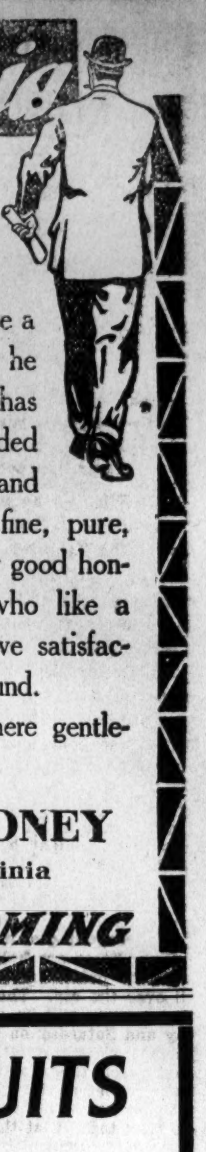
Belle of Virginia

BLENDED RYE



When a man goes for a drink of Belle of Virginia Whiskey he hurries because he knows he will have a fine drink, and when he comes away he smiles and smacks his lips because he has had it. Belle of Virginia is a blended whiskey—a rye whiskey carefully and scientifically blended from fine, pure, old whiskies. It's a really good honest article and to those who like a blended whiskey it will give satisfaction clear down to the ground.

Sold at the places where gentlemen go to get a drink.

UNEVENTFUL DAY AT CONVENTION

Triennial Sessions of Episcopalians in United States Well Under Way.

MUCH PRELIMINARY WORK

Organization is Progressing Satisfactorily—Negroes Want the House of Deputies to Come Over at Their Expense—Notes.

(By Wire to the Morning Star.)

Richmond, Va., Oct. 3.—The second day of the Triennal General Convention of the Protestant Episcopal Church in the United States passed uneventfully for both the House of Bishops and the House of Deputies, although excellent progress was reported in the work of organization. The reception of foreign church dignitaries was concluded in both houses and the ceremonies were greatly enjoyed. A reception to the members of the House of Bishops and their families and to the visiting bishops was given tonight by Bishop Gibson, of the Diocese of Virgina. These functions concluded the social programme so far as it conflicts with the general order of business during the three weeks remaining of the convention.

Committees are holding sessions tonight in public buildings and hotels all over the cty. The indications are that reports will be agreed upon Friday and Saturday on a number of important church questions and that next week there will be no lack of business before the houses.

There was so little pressing business on hand today that the House of Deputies found time to indulge in a little frivolity over a number of pending matters. A telegram was received from the negro institution at Hampton, Va., inviting the House to visit the school at the expense of the latter. Dr. Randolph Harrison McKim, president of the House, to whom the telegram was addressed remarked incidentally that the dispatch had cost him $1.73. No action was taken on the invitation. The House of Bishops received a similar invitation and a committee was appointed to respond.

A book on the negro question which was written by Bishop Brown, of Arkansas, was recommended to the House of Deputies in a speech by Deputy Jones, of the Arkansas diocese. The purpose of his speech was hardly made plain before there were numerous protests that the lobby of the church would be the proper place to sell books. Mr. Jones responded that the profits from the sales would be used in carrying on missions among negroes, but he was ruled out of order.

Cyrus Townsend Brady secured the adoption of a resolution asking the bishops to provide a prayer for the safe return of persons going on a journey other than by sea, there being a prayer covering sea voyages.

The New Jersey diocese presented an invitation from Atlantic City inviting the convention to meet there in 1910. The diocese of Los Angeles secured the endorsement of a memorial asking that a commission be appointed to raise the sum of $5,000,000, to be added to the general fund for the relief of clergy and members of their families.

From the diocese of Springfield, Ill., came a petition asking communicants to aid in the building fund for Saints Peter and Paul Cathedral in Washington and to remember it in their wills.

A resolution was then adopted commending the construction of the National cathedral. Several memorials were received in both houses looking to the remarriage of divorced persons. In both houses a concurrent resolution was adopted expressing satisfaction that a high moral position had been taken on this subject since the last general convention and the hope that positive action would be taken at the present convention.

After the adoption of a motion to adjourn, the House of Deputies was called back to receive a message from the Woman's Auxilliary announcing that at the thank offering services today the offerings amounted to $222,353. At the convention three years ago the offering was $150,000. The house received the news by rising and singing "Praise God From Whom All Blessings Flow."

The bishops of Mexico and Alabama appeared and took their seats in the House of Bishops today. A petition was received from the church in Brazil asking that it be made a missionary district of the American church. Hayti asked for the translation of the prayers into French, and Cuba into Spanish. These matters were referred to the proper committees as were also a large number of proposed amendments to the canons.

Tomorrow will be mission day in the convention and a joint session will be held at 11 o'clock. Prior to that meeting the representatives of the church in Canada and Australia will be received by the House of Deputies.

Archbishop Nuttall, of the West Indies, visited the House of Deputies during the day.

Dr. Dandolph H. McKim, president of the House, thanked the archbishop for his visit to the convention and the archbishop responded briefly, complimenting the American church on the progress it has made. He left Richmond at noon today.

Archbishop Nuttall spoke feelingly of the destruction of church buildings in Jamaica by the recent earthquake and of his visit to England for aid. He said that visit would not have been necessary, he believed, "if that great outflow of help and sympathy, promised and manifested at first, had been allowed to come in the island from the United States." Again in conclusion he told the convention that if any members desired to aid the suffering church he hoped they would do so. These were the only references made to the Swettenham-Davis incident when Great Britain's insular governor rejected the assistance professed by the United States through Admiral Davis of the Navy.

President of the House of Deputies announced that a special deputation representing the original thirteen colonies would go to Williamsburg, Va., Saturday morning for the services at Bruton Parish church, when the bible from King Edward and a lectern from President Roosevelt will be accepted.

GALENA SIGNAL OIL ONE OF STANDARD

Controls Ninety-Seven Per Cent of Lubricating Business With Railroads.

PRICES ARE NOT UNIFORM

Accountant Told How Contracts Were Made and How Prices Varied—Standard Is So Much Per Mile With Rebate.

(By Wire to The Morning Star.)

New York, Oct. 3.—That the Galena Signal Oil Company, a subsidiary of the Standard Oil Company, controls 97 per cent. of the lubricating oil business with the railroads of the United States and that the prices for its products are not uniform with all railroads, was written in the records of today's hearing of the Federal suit against the so-called oil trust.

C. C. Steinbrenner, an accountant for the Galena Company, told in detail how contracts were made with railroads whereby they were guaranteed a maximum cost for the lubrication of the road, based on mileage for engines and cars and when the maximum cost was found at the end of certain periods to fall short of the standard invoiced price which all railroads paid when they received the oil, the Galena Company made a refund of the difference.

From statements compiled from the Galena Company's books, Mr. Kellogg was able to show that in some cases the amount of the refund was nearly fifty per cent. of the invoice price. Mr. Steinbrenner testified that the lubricating oil furnished to the Pennsylvania Railroad was sold at a loss. The Galena Company fixed the standard invoice price of valve oil for engines last year at 48 cents a gallon and Mr. Kellogg drew from the witness that the Pennsylvania Railroad after the refund was deducted obtained its oil for 24 cents.

Mr. Steinbrenner testified that the New York Central, Union Pacific, Delaware and Hudson, and Southern railroads paid 48 cents a gallon or the full invoice price without refund. The Baltimore and Ohio Railroad paid 38 cents a gallon, while the Toledo, Peoria and Western obtained its oil for 26 cents.

Mr. Steinbrenner said that the fixing of the minimum cost of lubricating oil to a railroad was a matter of hard bargaining.

A letter written by President Miller, of the Galena Company in 1905 to Vice President Marony, of the Pittsburg, Shawmut and Northern Railroad and placed in evidence today, stated that the Galena Company was supplying 97 1-2 per cent. of the total mileage of the United States, Canada and Mexico. One of the railroads that the Galena Company did not supply with oil, Mr. Steinbrenner said, was the Tidewater Railroad owned by Henry H. Rogers, vice president of Standard Oil Company. The witness said the Galena Company had tried to obtain the contract with the Tidewater Railroad, but had failed. Mr. Kellogg suggested that perhaps Mr. Rogers thought he could get better oil.

WOMAN'S STRANGE STORY

Child Burned Up Was Afraid to Tell Her Husband.

(By Wire to The Morning Star.)

Burlington ,Iowa, Oct. 3.—It is now believed that the story told by Mrs. John Hathaway yesterday that a tramp tied her son to a fence post and burned him to death because she had refused to give the tramp food, is untrue. The Hathaways live near Oquawka, Illinois, and the woman's story had produced intense excitement in that neighborhood.

The coroner's investigation today developed that Mrs. Hathaway had left her children alone while she went to a neighbor's and it is thought that during her absence the boy set fire to his clothing while playing with matches. The officials at Oquawka believe that Mrs. Hathaway invented the tramp story in order to placate her husband. The coroner's jury returned a verdict of accidental death and Frank Williams, a negro arrested at Monmouth, Ill., on suspicion of being implicated in the alleged crime was released.

KENTUCKY LIQUOR SHIPMENTS.

Prohibition Territory Cannot Exclude Inter-State Traffic.

(By Wire to The Morning Star.)

Frankfort, Ky., Oct. 3.—By a decision of the Kentucky Court of Appeals announced today, shipments of whiskey and other liquors from points outside the State to points within prohibition territory are held to be inter-State commerce and the carriers are not amenable under the legislative act of 1906 imposing a penalty for so shipping. The decision is a reversal of a judgment of the Boyle Circuit Court in the case of the Cincinnati, New Orleans and Texas Pacific Railway Company versus the Commonwealth.

PRESIDENT'S TRIP ON MISSISSIPPI

Great Ovation For Nation's Chief Executive at Cairo, Illinois, Yesterday.

AN ACCIDENT TO STEAMER

Governor Curry Thinks He Has President Pledged to Single Statehood for New Mexico—School Children at Demonstration.

(By Wire to The Morning Star.)

Cairo, Ills., Oct. 3.—President Roosevelt and party arrived at the Cairo wharf boat promptly at 9 o'clock and were saluted by the Danville battery and hundreds of steamboat and other whistles. The party which was met by the reception committee headed by Mayor George Parsons and fifty carriages, all drawn by white horses, conveyed them along the line of marca to St. Mary's Park. A squad of police and the fourth regiment of the Illinois National Guard headed by the Fifth Regimental Band, led the procession. On arrival at the park, Mayor Parsons introduced Governor Deneen who addressed the people briefly and then introduced President Roosevelt, who began speaking at 9:40, and continued until 10:50 after which the party returned to their boats and remained in port until 11 o'clock when the fleet started for Memphis amid the booming of cannon and other popular demonstrations.

Over 10,000 people listened to the President's address. Ovation after ovation was given the President.

Two thousand school children on platforms saluted the President's party.

Statehood for Mexico.

Cairo, Ills, Oct. 3.—Governor Curry, of New Mexico, who spent last night on the boat with President Roosevelt, secured a promise from him to support single statehood for New Mexico.

"He authorized me to say," said the Governor, "that he is for statehood for New Mexico alone and will do all the can to secure the passage of a single statehood bill. We will have the bill introduced early in the next session, the governor added and will crowd it to a finish."

A Reported Accident.

St. Louis, Oct. 3.—A long distance telephone message from Cairo was received by the Associated Press at 4:13 this afternoon to the effect that the steamer Mississippi, bearing President Roosevelt to Memphis, had broken her machinery and put into shore for repairs. The spot where the steamer tied up is twelve miles below Cairo, between Wyckliffe and Columbus, Ky. The news was brought to Cairo by a steamer that had accompanied the flotilla down the river. No serious damage is reported but delay in the trip by reason of the breakdown. The story of the mishap to the steamer was not later verified.

St. Louis, Oct. 3.—The President's boat did not land at New Madrid, owing to his desire not to vary his programme. The run down the river was devoid of interest for the most part, the only enlivening incident being a brief race between the Alton and the Fred Hartwig, a fast Ohio boat with a delegation from Pittsburg on board. The race was a draw. The President lunched aboard the Colonel MacKenzie with the Inland Waterways Commission. The low river banks were at places fringed with people, but they were generally too far removed from the boats to permit any demonstration except the waving of handkerchiefs.

The President and delegations of the deep waterways convention accompanying him are scheduled to arrive at Memphis tomorrow afternoon about 1 o'clock. The President will make the final speech of his trip at this place.

ECHO FROM FRISCO TROUBLE.

Japan Chambers of Commerce to the New York Organizations.

(By Wire to the Morning Star.)

New York, Oct. 3.—A letter from the Tokio Chamber of Commerce appealing to the New York Chamber of Commerce to do all in its power to prevent a breach of relations between the United States and Japan over the San Francisco incident, and the reply of the New York organization expressing confidence that "wholesome public sentiment will assert itself in the locality where these incidents occurred," were made public at today's meeting of the New York Chamber.

The letter from Tokio which was signed, not only by the Tokio chambers of commerce, after briefly referring to the trouble in San Francisco, said:

"Should the progress of the trade and commerce between the two nations be at any time obstructed as the result of unwarrantable action of a small local population, the loss to be sustained by the two countries would be incalculable. For these reasons the undersigned, representatives of the chambers of commerce, venture to address this letter to you to express our views on the situation, in a confident hope that these views will be shared by you and that you will, by considering this matter in the light of the principles of international intercourse and in view of the mutual advantages of our trade relations, make your best efforts to speedily eliminate the present causes of discord and insure common prosperity for the future."

Tuesday and Wednesday, October 8th and 9th, opening days at the Polvogt Company. **

Read Star Business Locals.

WARM WIRELETS.

A telephone message received at St. Louis about 10 o'clock last night from New Madrid, Mo., near the Kentucky Tennessee line, says the President's boat, the Mississippi, and accompanying flotilla, has passed there.

Excavations in the Panama canal zone during September aggregated 1,517,412 cubic yards. In the canal prism proper the excavations were 1,481,307 cubic yards against 1,274,405 cubic yards in August and 1,058,770 cubic yards in July.

The 23d United States Infantry and the 12th U. S. cavalry returned to camp at the Jamestown Exposition yesterday from Canton, O., where they attended on Monday the dedication of the McKinley Memorial. These troops which have been at the Exposition since the opening April 26th will remain until the close, November 30.

Secretary Metcalf has received from the Attorney General of the United States an opinion on the general question of the legality of the Navy Department chartering foreign vessels to carry coal for the American Navy. He declined to make public the nature of this opinion.

John Denison, a non-union machinist, died at New Orleans at the charity hospital yesterday as a result of injuries received several weeks ago when attacked by men alleged to be striking machinists. He is said to have come to New Orleans from Washington or New York. No arrests have been made.

The Cincinnati National League baseball team will do its preliminary training at St. Augustine, Fla., in the Spring of 1908. The management of the club announced yesterday that all arrangements have been completed for the use of the Y. M. C. A. grounds at that place. The members of the club will probably start for the training grounds March 10th.

FERTILIZER MEN MEET.

Officers, Managers and Salesmen Gather in Norfolk.

(By Wire to the Morning Star.)

Norfolk, Va., Oct. 2.—The officers, managers and fertilizer salesmen of the Virginia-Carolina Chemical Company from Baltimore to Texas met in the Lynnhaven Hotel here today, and will be in Norfolk through Friday. One hundred and twenty-five are attending. S. T. Morgan, of Richmond, president, will be here tomorrow morning.

J. Rice Smith, head manager, announced that the gathering was similar to the meeting in Savannah last year, and that it was designed to give those now here an opportunity to see the Jamestown Exposition.

Mr. Smith declared that the meeting had nothing to do with the pending fertilizer trust prosecution by the government, in which the Virginia-Carolina Chemical Company is involved with himself as one of the defendants, and that the government prosecution would not come up for consideration in any form here.

EDITOR GUILTY OF LIBEL

Yonkers Man Charged With Villifying Mr. Jerome.

(By Wire to the Morning Star.)

White Plains, N. Y., Oct. 3.—Frank E. Xavier, editor of the Yonkers Herald, was found guilty by a jury today of criminal libel against District Attorney W. T. Jerome. Counsel for Mr. Xavier asked the court to set aside the verdict as being against the evidence, and Judge Platt said he would hear arguments on that point next week. Mr. Avier was accused of publishing in his paper the allegation that Mr. Jerome had an agreement with insurance interests by which they were to support him for Governor if certain insurance men were not indicted.

COL. JOHN A. THRALL DEAD

His Speech Prevented Kentucky From Seceding During The War.

(By Wire to The Morning Star.)

Lexington, Ky., Oct. 3.—Colonel John A. Thrall, whose speech while a State Senator is said to have been partly instrumental in preventing Kentucky from seceding from the Union and joining the Confederacy in the Civil War, died last night at Danville, aged 78 years. He formerly lived here where he was for many years United States, pension agent and United States assessor.

DR. CAMPBELL ELECTED.

Succeeds Late Dr. P. L. Murphy at Morganton Asylum.

(By Wire to The Morning Star.)

Charlotte, N. C., Oct. 3.—At a special meeting of the Board of Directors at Morganton, N. C., today, Dr. John M. Campbell was elected superintendent of the State hospital for the insane to succeed Dr. P. L. Murphy, the noted alienist, who died ten days ago. Dr. Campbell was first assistant physician of the institution.
